## Profile Summary

- Web Developer with a focus on frontend development, passionate about creating dynamic and user-friendly web applications.
- Developed impactful projects, including a Car Rental Website and a Student Task Management System.
- Skilled in troubleshooting complex technical challenges, optimizing workflows, and collaborating effectively in team environments.
- Driven by innovation and a strong commitment to continuous learning,
- A quick learner with the ability to tackle challenging situations, eager to apply technical skills to real-world problems and contribute to innovative solutions.

## Technical Skills

- |        |              |          |                   |
|--------|--------------|----------|-------------------|
| • HTML | • JavaScript | • Python | • Angular Js      |
| • CSS  | • Java       | • RRBMS  | • Design Thinking |

## Projects

RentiFy - Car Rental Website | HTML5, CSS3, JavaScript | [View Website](#) March 2024

- Developed a fully functional car rental service website with a modern, responsive design optimized for both desktop and mobile.
- Categorized cars into Basic, Average, and Luxury tiers, each with detailed information and a booking option.
- Designed and implemented essential pages, including Home, About Us, Contact Us, and Blog, as well as a secure login system.
- Focused on providing a seamless user experience with interactive navigation, form validation, and a responsive layout.
- Demonstrated expertise in UI/UX design and web development, ensuring usability across multiple devices.

Student Task Management | HTML5, CSS3, JavaScript, Angular Js | [View Website](#) Aug 2024

(Email: 123@hicet.com — Password: abcd@123—DOB: 01/01/2005 )

- Developed a task management system integrated within the college website, offering students a centralized platform to manage their academic tasks.
- Upon visiting the website, users are first greeted with the college's homepage, offering an overview of the institution's services, news, and events.
- Students can log in using their student ID and password to access their personalized dashboard.
- Focused on creating a user-friendly experience with an intuitive interface, ensuring students can easily manage their academic workload.

## Education

Hindusthan College of Engineering and Technology  
Bachelor of Engineering in Electronics and Communication Engineering

Expected Graduation: 2026  
Coimbatore, Tamil Nadu

## Extracurricular / Certifications

- Actively participated in several national-level events, including eYantra at IIT Bombay, as well as hackathons like TechGium and MSME.
- Presented papers at various college events, including a notable presentation at IIIT Sri City, Andhra Pradesh. Worked on IoT-based projects and developed mobile applications for autonomous vehicle control during my time at IIIT Sri City.
- Earned certifications in Python, Java, RDBMS, AngularJS, and Design Thinking from IBM Career Guidance.
- Continuously advancing my skills, particularly in Full Stack Development, to further enhance my technical expertise.
